

Listening Session(LS)

This is a human-readable printout of the questionnaire of the survey named *LS*.

This document has been created by [PsyToolkit](#) version 3.4.0 on 2022-10-25 (year/month/day) at 15:26.

Information screen

**Before the participant decides to participate,
The following information is shown:**

Welcome to the listening session day 1 of 20 of the Music Recommendation Experiment study!

Following, you can find the information sheet with further information about this project.

Please, do not hesitate in contacting us if you have any question.

Questions/Items

Item number: 1

Following, you will have to listen to one recording formed by four Electronic Music tracks (45 seconds for track).

Your task is to listen **ENTIRELY** to the recording, and let us know if you like or not the tracks.

Not listening to the whole recording will be considered as a **NOT COMPLETED** task.

Before starting, remember to **ADJUST** the volume to a **COMFORTABLE** level (not too low, not too high).

You can use the audio below to adjust the volume. Continue when you are ready to listen to the recording.

Item number: 2

<AUDIO PLAYER FOR CALIBRATION>

Item number: 3

Please, listen to the entire recording below.

Be sure to be in a quiet environment, and allow yourself to be immersed in the music.

Item number: 4

<AUDIO PLAYER FOR LISTENING SESSION>

Item number: 5

Did some of the tracks sound familiar to you?

1. Yes
2. No
3. Maybe

Item number: 6

Overall, do you like the today's recording?

1. I totally do NOT like it.
2. I do NOT like it.
3. Neither I like it or not.
